

FOR FOUNDERS, OPERATORS & FRACTIONAL LEADERS

You've earned the expertise. *Now let your influence compound.*

Eve learns how you think and turns voice memos into publish-ready content — LinkedIn, blog, newsletter, and more. Most executives spend under 30 minutes a week.

WHY NOW

2nd most cited

LinkedIn is the second most-cited source across ChatGPT, Google AI Mode, and Perplexity — how AI describes your category.

3% → 30%

3% of employees drive 30% of LinkedIn engagement. Personal voice compounds; company pages don't.

Sources: LinkedIn; State of Brand, 2026

WHO THIS IS FOR

Out of bandwidth, not ideas.

Founders, operators, fractional leaders. You have the expertise, the audience, and the network — what you don't have is ten hours a week to sit in a doc. Run Eve yourself, or pair with a matched partner who handles strategy and publishing.

WHAT KEEPS BREAKING

The idea dies in your head

Monday you had a sharp take. Tuesday it's half-written. Friday it's gone — and the market moved on.

It doesn't sound like you

ChatGPT gives you generic filler. Ghostwriters get close but miss the nuance. Both take more of your time than you have.

One good post isn't the problem

The hard part is doing it every week, while running the business. Consistency is the compounding lever.

How Eve works, in three steps

A VOICE MEMO ON MONDAY, A POST BY 8:05 AM

01

WE LEARN

Your voice model, built in 15 minutes.

Eve trains on how you think, argue, and explain — not just your bio and keywords. The model captures the rhythm of your arguments, the phrases you reach for, and the experiences that shape your takes. It sharpens with every use.

Setup: 15 minutes with voice samples and a short interview.

02

YOU SPEAK

A 3-minute memo. A publish-ready post.

Drop a voice memo after a meeting, a reaction to the news, or a thought from your commute. Eve returns a draft in your voice — LinkedIn, blog, newsletter, or talking points — with coaching notes that push back on weak inputs and sharpen your angle.

Weekly effort: under 30 minutes, total.

03

INFLUENCE SCALES

Every channel. Every week.

One input fans out across LinkedIn, blog, newsletter, podcast notes, and more. Publish weekly without hand-to-hand editing — or pair with a matched partner who handles strategy, drafting, and distribution. You just keep sharing your thinking.

Modes: self-managed, or Partner Match with a vetted content partner.

TIME

Under 30 min/wk

Voice memos in, publish-ready drafts out. The rest of your week goes back to running the business.

VOICE

Sounds like you

Trained on how you think and argue — not just your bio. Most executives stop heavy editing after month one.

COMPOUNDING

Sharper every week

Every memo, every edit, every approval trains the model further. Your voice evolves with your thinking.

EARLY RESULTS

2× engagement

Across LinkedIn, newsletter, and podcast — with deal flow doubling alongside it.

VALIDATED ON

1,000+ pieces of content from 100+ leaders.
